WORK EXPERIENCE

Kymen Rakennuspiste (Kotka) 9.4.2018- Asbestos removal specialist, renovation planning
My tasks include renovation planning, worksite supervision, and planning, supervising and executing asbestos removal.

Titaani Rakennus Oy (Helsinki) 2.1.2018-6.4.2018 Worksite Foreman
My main job was to supervise renovation worksites. I also did BOM calculations and subcontracting.

Pilasteri Engineering (Kotka) 26.9.2016- Entrepreneur
My services are digitizing building plans, structure condition and moisture damage surveys, renovation planning, worksite supervision and other technical consultation of construction methods.

Isännöintitoimisto Tarhala Oy (Kotka) 14.3.2016-23.9.2016 Technical manager (internship)
My tasks were doing condition surveys, repair action planning and renovation planning.

CM-rakentajat Oy Etelä-Suomi (Helsinki) 1.2.2013-17.1.2014 Structural designer, production manager
My job was to calculate and design the structure of modular prefabricated balconies for new buildings by using SolidWorks for the designs. I also worked as a production plant manager from February until September of 2013.

Uudenmaan rakennus- ja maalauspalvelu Oy (Helsinki) 27.6.2011-27.9.2011 Construction Worker (summer job)
I worked as a construction worker at the Senaatti-estates' moisture damage renovation sites. I did compartment construction, demolition, painting, caulking and cleaning.

Santa Monica Software/Cygate Oy 20.04.1998-29.10.2006 Logistics worker, distribution center
I worked as a logistics worker in Santa Monica Software/Cygate Oy. My tasks were shipping orders nationally and internationally, entering buy orders and arrivals into the stock management system and fulfilling customer orders. In addition, I did system upgrades and pre-installations of IP -phones, LAN/WAN routers and managed switches.

Kulosaaren Secondary School 17.01.1997-09.04.1998 Network administrator
In Kulosaari Secondary School I worked as a network administrator. My job was to manage the school's Windows 98 workstations and NT4.0 servers, to work as computer support for students and faculty and supervising the after-school computer club. I also worked as the IT trainer for the staff and I managed the school's AV equipment.
